MEMORY LANE
MEMORIALS

Discover the difference...

We are proud to present The Costswold Collection and we hope that this brochure will help you to decide upon a suitable memorial for your loved one.

Throughout these pages you will find a range of exceptional quality memorials that are suitable for cemeteries and churchyards. The options of material and design are almost endless, so this brochure represents only the most popular memorial designs. If you have something in mind that isn't shown here, please let us know as we will be pleased to create something that meets your needs.

Adding designs or ornamentation to your memorial will allow you to create a unique and personal tribute to your loved one. We offer an extensive range of emblems, designs and ornaments for you to choose from. You will find the most frequently requested designs in the pages within this brochure. Alternatively we have skilled craftsman and artists who can produce bespoke designs to meet your personal taste.

We hope you find a design that you like within this brochure however should you need any advice or assistance, please do not hesitate to contact us.

Memorial Finishes

Polished

All visible areas of the memorial are polished with the exception of any design work or inward facing surfaces. This finish is suitable for virtually all cemeteries.

Honed

A honed finish can be best described as an 'eggshell' or 'matt' finish. Whilst extremely smooth it is non-reflective and particularly suitable for most churchyards.

Part Polished

The polished or honed area of a memorial is restricted to the inscription face and top of base where applicable. All other surfaces will be, sawn, pitched, sand blasted or rubbed as appropriate to the individual memorial.

Pitched

A pitched finish is one that has been achieved by using a bolster and hammer which gives a rough 'Natural Rock' finish to the memorial.

Please note that the colours shown are for illustration only.

We have tried to make them as representative as possible but they cannot be portrayed exactly. Being natural products they will vary from memorial to memorial making each one unique.

CNC Carving

Traditional masonry skills can now be enhanced by modern technology. Computer aided design and modern machinery produce precision relief carvings at affordable prices. We offer an extensive range of beautiful designs and can also reproduce bespoke works of art to create a memorial as unique as the person you're commemorating. The resulting 3D carvings can be left as natural stone or painted by our team of highly skilled artists.

Memorial Finishes

Polished

All visible areas of the memorial are polished with the exception of any design work or inward facing surfaces. This finish is suitable for virtually all cemeteries.

Honed

A honed finish can be best described as an 'eggshell' or 'matt' finish. Whilst extremely smooth it is non-reflective and particularly suitable for most churchyards.

Part Polished

The polished or honed area of a memorial is restricted to the inscription face and top of base where applicable. All other surfaces will be, sawn, pitched, sand blasted or rubbed as appropriate to the individual memorial.

Pitched

A pitched finish is one that has been achieved by using a bolster and hammer which gives a rough 'Natural Rock' finish to the memorial.

Please note that the colours shown are for illustration only.
We have tried to make them as representative as possible but they cannot be portrayed exactly.
Being natural products they will vary from memorial to memorial making each one unique.

CREMATION MEMORIALS

Memorial Finishes

Polished

All visible areas of the memorial are polished with the exception of any design work or inward facing surfaces. This finish is suitable for virtually all cemeteries.

Honed

A honed finish can be best described as an 'eggshell' or 'matt' finish. Whilst extremely smooth it is non-reflective and particularly suitable for most churchyards.

Part Polished

The polished or honed area of a memorial is restricted to the inscription face and top of base where applicable. All other surfaces will be, sawn, pitched, sand blasted or rubbed as appropriate to the individual memorial.

Pitched

A pitched finish is one that has been achieved by using a bolster and hammer which gives a rough 'Natural Rock' finish to the memorial.

Please note that the colours shown are for illustration only.

We have tried to make them as representative as possible but they cannot be portrayed exactly. Being natural products they will vary from memorial to memorial making each one unique.

Memorial Finishes

Polished

All visible areas of the memorial are polished with the exception of any design work or inward facing surfaces. This finish is suitable for virtually all cemeteries.

Honed

A honed finish can be best described as an 'eggshell' or 'matt' finish. Whilst extremely smooth it is non-reflective and particularly suitable for most churchyards.

Part Polished

The polished or honed area of a memorial is restricted to the inscription face and top of base where applicable. All other surfaces will be, sawn, pitched, sand blasted or rubbed as appropriate to the individual memorial.

Pitched

A pitched finish is one that has been achieved by using a bolster and hammer which gives a rough 'Natural Rock' finish to the memorial.

Please note that the colours shown are for illustration only.

We have tried to make them as representative as possible but they cannot be portrayed exactly. Being natural products they will vary from memorial to memorial making each one unique.

MEMORIAL DESIGNS

The addition of artwork on a memorial can create a unique and fitting tribute. Our team of skilled artists and masons can combine a number of techniques to produce high quality designs appropriate to the person being remembered. The following examples represent just a small number of the designs available.

Sandblasting and Laser etching remain the most common method of producing an image. These designs can then be highlighted or painted to create something personal and meaningful.
